

ASSEMBLY INSTRUCTIONS

STYLE#: **22168**

Carefully unpack all lamp parts from the carton.

1. Take the lamp carefully out of the Carton, and place it on a flat surface.
2. Be sure the power to the installation point is power off.
3. Place the **Universal Bar** over the **Canopy** and thread **Mounting Balls** onto the **Mounting Screws** to secure it. Hand tighten until snug.
4. Determine the number of **Rods** to be assembled according to your hanging height. Adjust wire length for your hanging height removing excess. Pass supply wires through the Rods. Thread the **Rods** to connect **Nipple#1** and **Nipple#2** of **Fixture Body**. Hand tighten until snug.
5. Pass the supply wires through the **Canopy** and the hole in the middle of the **Universal Bar**.
6. Position the round plate on the top of the **Shade** through the **Socket**. Thread the **Metal Sleeve#1** and **Metal Sleeve#2** onto the socket. Then use **Plastic Wrench** to lock the **Socket Collar** to secure the **Shade**. Hand tighten until snug.
7. Install the correct **Bulb** (Not Included) onto the **Socket** referring to fixture markings and/or labels for maximum wattage.

Your installation is completed now. Restore electricity.
