

HANGING INSTRUCTIONS

Special hangers are securely fastened to the back of this mirror. **DO NOT USE WIRE** to hang this item. Instead, nail the enclosed hooks securely into the wall, spaced so that the hangers will hang from those hooks. This should provide an even distribution of weight for a safe installation.

Correct distribution of weight using two hooks.

The weight of the mirror not properly distributed places strain at one point on both wire and hangers

NO COLGAR CON ALAMBRE. En vez de eso, clavar el gancho adjunto firmemente a la pared, espaciado de manera que los colgadores cuelguen de estos ganchos.
